The **BBC** Bitesize Schools **Tour**

The Institution of Mechanical Engineers has partnered with BBC Bitesize Schools Tour to support secondary school students across the UK!

The BBC Bitesize Schools Tour is entering its 6th successive run.

It has become a flagship BBC event that supports secondary school students across the UK as they embark upon their career endeavours.

BBC Bitesize will visit over **125,000** secondary school students across the country and we are looking for inspiring and engaging engineers to represent the engineering profession.

If you are interested in taking part please send a short video clip telling us about yourself and your passion for outreach to education@imeche.org. Recruitment is now open. The tour runs from September 2024 to January 2025

Calling early career engineers to get involved! Members at all levels to be considered.
